Connecting the towns with greenery

Why don't you enjoy
the greenery of the city leisurely
while walking and jogging
with the "Green Map"?

Tokyo Metropolitan Greening Fund

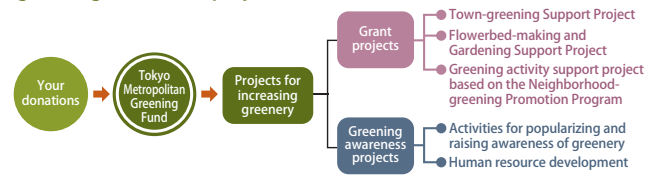

Tokyo Metropolitan Greening Fund

The Tokyo Metropolitan Greening Fund was established in 1985 within the Tokyo Metropolitan Parks Association to create a greener city by increasing greenery on privately owned land in cooperation with citizens. Since then, the Fund has promoted the greening of Tokyo by supporting the efforts of volunteer groups and private entities while educating the public about the importance of urban greening.

Green Map

Connecting the towns with greenery

SEGES Label
Some of the listed facilities are greening facilities that are certified as "SEGES ESW (Environmental Friendliness, Safety and Well-being)" in the Social and Environmental Green Evaluation System (SEGES) of the Organization for Landscape and Urban Green Infrastructure (OLUGI). SEGES Label are placed at the information section of these facilities.

OLUGI and SEGES
OLUGI is a public interest incorporated foundation that promotes green urban development. SEGES evaluates and certifies the outstanding effects of these green spaces and green initiatives in order to help "assess and communicate the value" of corporate green spaces. As of October 2025, it has been awarded to 157 sites.

Tokyo Metropolitan Greening Fund Grant Facility List

TOPICS

A New Green Town, Starting from the Train Station

A town directly connected to Takanawa Gateway Station. You can enjoy the waterscape and the changing seasons at the plaza.

The town stretches approximately 1 km from north to south, and is connected by a pedestrian-only promenade, creating a relaxing space where people can spend time in their own way.

45 TAKANAWA GATEWAY CITY

Directly connected to Takanawa Gateway Station and spanning approximately 1 km north to south between the Shinagawa and Tamachi areas, a large-scale urban development is underway, integrating the station, residences, offices, and a multi-purpose cultural complex. Based on the themes of environment, mobility, and healthcare, this new type of town features waterfront environments and lush greenery. It is designed with biodiversity in mind, making it both nature-rich and eco-friendly. In spring 2026, the construction of a cultural complex, "MoN Takanawa: The Museum of Narratives," will be completed.

Metropolitan Parks/Gardens and Sumida River Terrace

Let's visit Areas with Greenery and Water!

- Hibiya Park
- Yoyogi Park
- Rinshinomori Park
- Toyama Park
- Aoyama Park and Aoyama Cemetery
- Koishikawa Korakuen Gardens
- Shiba Park
- Kyu-Shiba-rikyu Gardens
- Hama-rikyu Gardens
- Kyu-Iwasaki-tei Gardens
- Kiyosumi Gardens
- Kiba Park

Sumida River Terrace

Sumida River Terrace is a waterfront facility along both banks of the Sumida River. Most of the 12-kilometer stretch from Kachidokibashi Bridge at the downstream end to Minami-Senju is a promenade where you can enjoy a walk along the river. The sound of the flowing water and the sight of the colorful flower beds bring enjoyment to all five of the senses.

Recommendation 1
The Okawabata walking course starts at Monzen-nakacho Station, passes through St. Luke's Garden, and ends at Kachidokibashi Bridge downstream.

Recommendation 2
This walking course covers the Hanamori Flower beds and Ryogoku. It starts at Kuramaebashi Bridge and ends at Ryogokubashi Bridge and the surrounding area.

Shinjuku City & Shibuya City

Facility name / Map no. / Information

Isetan Shinjuku Main Store I-GARDEN 1

They consist of a peaceful garden with a spacious lawn area and a garden surrounded by about 350 species of plants, including cherry trees and Japanese maple. Enjoy the lovely transformation of seasons reflected in the trees and plants in village forests.

Shinjuku Marui Main Building's Q-COURT 2

The authentic English-style garden is composed of five unique areas where you can enjoy the sunlight and breezes and spend time relaxing surrounded by seasonal flowers.

CO-MO-RE YOTSUYA 3

A stepped nature which constructed integration with the building forms scenery of lushly green. It is connected to the green tract of land and outer moat of Yotsuya. Passage which is connected to the entrance square and the circle square (square of CO-MO-RE-BI) entices your steps from station to the nature.

Tokyu Plaza Omotesando "OMOKADO" 4

The free space on the sixth floor welcomes you with trees that suggest a change of seasons including Zelkova, the symbol of the Omotesando/Harajuku area, creating a relaxing and comfortable space for you.

Tokyu Plaza Harajuku "HARAKADO" 5

This complex was created as a hub for diverse and unique cultural creation and promotion. Its charm lies in the open, green, terraced space that leads to the rooftop terrace on the 7th floor. The greenery of the two buildings, "Omokado" and "Harakado," located at the Jingumae intersection, contributes to the green landscape stretching from Meiji Jinjy Shrine to Omotesando.

Around Nihonbashi & Kyobashi

COREDO Muromachi Terrace 29

Based on the idea of creating a forest of various kinds of Japanese trees in Nihonbashi, cherry trees, maples, zelkova and other Japanese trees are planted. You can enjoy many varieties of cherry blossoms from mid-March to late April.

Fukutoku Shrine・Fukutoku Forest 30

Together with a more than 1,000m² plaza next to COREDO Muromachi, the garden serves as a base where people can interact with each other and newly establish a local community. 2-5-1 Nihonbashi-Muromachi, Chuo-ku

Mitsukoshi Nihonbashi Main Store Nihonbashi Garden 31

Its base concept is "a forest of connections." In the spacious rooftop garden, you can directly experience the changes in nature brought about by the seasons and different weather conditions. (Food and drink facilities are open for a limited period.)

Nihonbashi Takashimaya S.C. Rooftop Garden 32

The rooftop garden locates over the main building, the annex and the east building which is connected with sky bridges. It is composed of various elements such as a rose garden, fountain and Japanese garden. Eating facilities are also established.

HANA KAIDO 33

Three times a year, the town council, businesses, and merchant associations work together to plant seasonal flowers in the flower beds along the Chuo-dori Avenue to brighten up the streetscape which stretches for approximately 2 kilometers from Shin-Nihonbashi Station to Kyobashi Station. This photo shows the "Flower Plaza" at the southern end of the famous Nihonbashi Bridge.

kyobashi edogrand 34

When exiting Kyobashi subway station, you will be impressed by the wide-open well-greened space. The terrace seats on the third floor have a relaxing atmosphere with green vegetation for a pleasing view.

TOKYO SQUARE GARDEN 35

From the first basement to the fifth floor is a mixed planting of around 140 types of trees, constituting the "Hill of Kyobashi." Cherry blossoms in spring and maple and ginkgo leaves in fall create seasonal scenery.

HON no MORI CHUO (Chuo City Kyobashi Library) 36

The promenade from the side of the main entrance along the stairs to the Greenery Space for Gathering on the second floor is lined with plants and benches, leading directly to the library entrance. There are also terrace seats in the Rooftop Garden, where you can read books and enjoy the greenery, feeling the pleasant harmony between the two experiences.

AKASAKA SACS 37

It aims at preserving and passing on the remembrance of the Akasaka area. Four hundred tall trees create a colorful seasonal view. For two months in spring, people can enjoy various kinds of cherry blossoms.

TORANOMON HILLS 42

As the intersection of the north-south greenery line from Hibiya Park to Mt. Atago and the east-west greenery line of Shintora-dori Ave., a green area and streams are established to tempt birds and other wild animals to the site.

ROPPONGI HILLS 39

There are enjoy the unique greenery of Roppongi-Keiyokai-dori Ave. with its colorful flowers and plants, the rooftop rice paddies of Keyakizaka Complex and the Mohri Garden, which is imbued with a sense of history.

AKASAKA INTERCITY AIR 40

The area of greenery was created to resemble the scenery of a natural village forest. Beside a tree-lined avenue are shady areas and water features. Enjoying the season, you can relax in a cafe or on a bench.

ARK HILLS 41

As seen from trees on the rooftop of Suntory Hall, this developed area harmonize with the greenery of more than 40,000 planted trees. The outer roads are famous for the 131 cherry trees of Sometei-oshino.

TAKANAWA GATEWAY CITY 45

This facility is set amid lush greenery that takes advantage of the hilly terrain, allowing visitors to experience a "Modern Urban Village" as a town designed like a plaza that connects people. Beside the 6,000-square-meter central plaza with lawn areas and waterscapes, there is also an orchard where you can experience the colors of all four seasons.

Chiyoda City - Otemachi

Nippon Toshi Center Kaikan 9

On the south side is an undulating plaza with Japanese apricot trees belonging to the Hirakawa Tomimura Shrine, and on the north side is a promenade where walkers can enjoy the colored foliage of Japanese apricot, cherry blossoms, zelkova and other seasonal plants.

KUDAN-KAIKAN TERRACE 10

The former Kudan Kaikan was rebuilt and renovated with partial preservation and restoration. The "Terrace along the Moat" and the rooftop garden along Ushigafuchi provide a space for rest and relaxation. Kudan Komichi leads to Uchibori Street, encouraging a circular stroll.

Surugadai Green Space 11 / ECOM Surugadai 12

Surugadai Green Space is a green space located on the premises of Mitui Sumitomo Insurance. Native plant species are grown to preserve biodiversity, and wild birds often visit the rooftop garden, which is open to the public. The adjacent ECOM Surugadai hosts special exhibitions related to living creatures and the environment.

Skygarden 13

In the Sky Garden on the fourth floor, a stream, paddy fields and a shrine were created to replicate the scenery of a village forest. You can while away the time in the garden listening to the sounds of the stream.

Otemachi One 14

This comprises seven green spaces covering 6,000 square meters with a luxurious grass area and a shaded space for a small group to gather. The garden supports the area environment by creating a cool spot in the heart of the city and enhancing carbon neutrality and biodiversity while playing a role in living up the neighborhood.

Around Akasaka, Roppongi & Minato City

AKASAKA SACS 37

It aims at preserving and passing on the remembrance of the Akasaka area. Four hundred tall trees create a colorful seasonal view. For two months in spring, people can enjoy various kinds of cherry blossoms.

TOKYO MIDTOWN 38

Roppongi's iconic spacious green area protects the environment and also serves as a place where people can relax. In an emergency, it is used for disaster-prevention activities.

ROPPONGI HILLS 39

There are enjoy the unique greenery of Roppongi-Keiyokai-dori Ave. with its colorful flowers and plants, the rooftop rice paddies of Keyakizaka Complex and the Mohri Garden, which is imbued with a sense of history.

AKASAKA INTERCITY AIR 40

The area of greenery was created to resemble the scenery of a natural village forest. Beside a tree-lined avenue are shady areas and water features. Enjoying the season, you can relax in a cafe or on a bench.

Beside the 6,000-square-meter central plaza with lawn areas and waterscapes, there is also an orchard where you can experience the colors of all four seasons.

Featured in Front Page Topics!!

Otemachi Hotoria 15

The thicket of trees that includes camphor and sawtooth oak extends outward to meet the greenery of the Imperial Palace. You can relax on a bench or in a cafe, surrounded by trees with a stream running through them.

Otemachi Building "SKY LAB" 16

The Otemachi Building, completed in 1958, was extensively renovated to create a 4,000 square meter rooftop featuring a workspace overflowing with greenery, a farm space for users to join in with growing vegetables, and the Otemachi Kannon space. You can visit some of them free of charge by downloading an app.

THE OTEMACHI TOWER (Otemachi Forest) 17

Based on the concept of restoring the natural environment, tall trees and forest-floor plants have been planted. The greenery forms a "true forest" in a central business district.

TOKYO TORCH Tokiwabashi Tower (TOKYO TORCH Park) 18

On the Tokyo Station side is a lively facade of buildings and greenery. Along the Nihonbashi River is a waterfront space lined with native floras. We are striving to promote the appeal of the area, in cooperation with local governments across the country.

Waterfront

WATERS takeshiba 46

The facility complex has a pier along with a tideland where Tokyo Bay's diverse aquatic species live. With culture and the arts at its core, an urban development effort is underway to make the most of the waterside.

TOKYO PORTCITY TAKESHIBA 47

The "New Eight Views of Takeshiba" highlights the site's unique characteristics of "rain, water, islands, paddy fields, incense, vegetable gardens, bees, and the sky" to express our biodiversity conservation initiatives.

BLUE FRONT SHIBAURA 48

BLUE FRONT SHIBAURA, which is located in the heart of the city, offers open waterfront spaces with rich nature, such as greenery, a canal, and the Port of Tokyo. The "GREEN WALK" which connects Hamamatsuchō Station and the Shibaaura area, is a lush green approach surrounded by approximately 200 trees.

Ekoin 49

Visitors can clear their minds and reflect on their lives in a bamboo garden located above the first-floor roof of Nenbutsu Hall.

Shiomi Shibusawa Park 54

Along the canal, there is an accessible walkway with ramps, allowing visitors to spend a pleasant time while enjoying the sea breeze. Over the stone walls, you can catch a glimpse of the relocated former residence of Eiichi Shibusawa.

Smart Innovation Ecosystem NOVARE 53

The "NOVARE Walk" is a promenade designed to harmonize with the lush greenery surrounding "Smart Innovation Ecosystem NOVARE" in front of Shiomi Station (open from 9:00 a.m. to 5:00 p.m. on facility operating days). It is a new retreat spot that not only supports health but inspires creativity and new ideas as well.

Harumi Island Triton Square 60

In an open space with more than 600 kinds of plants, office workers and residents form communities and hold various events.

URBAN DOCK LaPort TOYOSU 51

The "Biogarden" in the large shopping center provides opportunities for children to develop an interest in nature and think about the importance of preserving diversity.

Michino Terrace Toyosu 52

The facility complex in the Toyosu Market consists of an office building and a hotel with a natural hot spring. A green deck between the two buildings offers a pleasant retreat, with perimeters and walls lushly landscaped with greenery. The waterfront hotel has a park along the canal.

Shiomi Shibusawa Park 54

Along the canal, there is an accessible walkway with ramps, allowing visitors to spend a pleasant time while enjoying the sea breeze. Over the stone walls, you can catch a glimpse of the relocated former residence of Eiichi Shibusawa.

Smart Innovation Ecosystem NOVARE 53

The "NOVARE Walk" is a promenade designed to harmonize with the lush greenery surrounding "Smart Innovation Ecosystem NOVARE" in front of Shiomi Station (open from 9:00 a.m. to 5:00 p.m. on facility operating days).
